

PROGRAM MISSION

OURSIP provides research funding for first-year and sophomore students who have found an unpaid research position with a faculty member.

"The workshops that OURSIP requires are actually quite helpful. I got better at glancing over readings to quickly absorb the main argument and how it extends the arguments of others. The Q & A panels also provided some helpful insights in making decisions for my future!"

- Sera Gorucu, Class of 2020
and OURSIP Participant

EXPERIENCE

PROGRAM TIMELINE

FALL/ WINTER

Meet with faculty to discuss potential mentored research projects.

EARLY MARCH

Priority application deadline

EARLY APRIL

Final application deadline

MID-APRIL

Decisions are announced

SUMMER

Conduct your research! On-campus summer interns participate in the Summer Research Colloquium.

SEPTEMBER

Submit research summary statement and complete survey

FALL

Participate in program outreach panel.

For specific dates and deadlines, please visit the OURSIP webpage.

OURSIP funding is intended to offset the cost of room and board and modest research-related expenses such as small equipment and parts, consumable supplies, and books.

APPLICATION PROCESS

Step 1: Complete the OURSIP funding application in SAFE (includes a program questionnaire, itemized budget, transcript

Step 2: Have faculty adviser complete the online Commitment Form.

On-campus OURSIP participants come together weekly through the **Summer Research Colloquium (SRC)** workshops and social events. The SRC consists of a diverse and inclusive community of undergraduate and graduate student researchers from across the University. Through the SRC, participants receive peer support and research feedback and guidance. At the end of the summer, SRC undergraduates present their summer research at a mini-academic conference.
