EXPERIENCE

# PROGRAM TIMELINE

## FALL/ WINTER

Meet with potential faculty mentors and find or create a project.

## EARLY MARCH

Priority application deadline

## EARLY APRIL

Final application deadline

## MID-APRIL

Decisions are announced

## MID-JUNE

Summer program begins and runs through mid-August.

## SEPTEMBER

Submit research summary statement and complete survey

## FALL

Participate in program outreach panel.

For specific dates and deadlines, please visit the OURSIP webpage.

**OURSIP funding** is intended to offset the cost of room and board and small research-related expenses such as small equipment and parts, software, and books and journals.

There are two parts to the OURSIP application process:

### Part 1:

The OURSIP funding application in SAFE requires you to fill out a questionnaire and upload a transcript and resume.

### Part 2:

The research adviser commitment form must be filled out by you and your faculty adviser.

OURSIP participants come together weekly through the **Summer Research Colloquium (SRC)** workshops and social events. The SRC consists of a diverse and inclusive community of undergraduate and graduate student researchers from across the University. Through the SRC, participants receive peer support and research feedback and guidance. At the end of the summer, SRC undergraduates present their summer research at a mini-academic conference.
